THE CLASSIC COLLECTION

THE INSPIRATION BEHIND IT

This classic collection represents not only the most well received paintings but also some of my personal favorites.

More often than not I find I am surprised at what I was able to create with some imagination and a brush, I can't begin to describe the joy felt each time. I often end up staring long after they are completed taking in what just happened in awe. All the works in this collection inspired that feeling.

I hope you enjoy this selection of artworks as much as I enjoyed staring at them

The values suggested below are for already designed products, anything custom would be at a higher price point.

This comparison tool is to help you understand the approximate profit margins in place if you are choosing to become a wholesale reseller of our products.
